Photoshop expert **Guy Gowan** is delighted to be back in Australia this November for a 6 city tour presenting a series of Adobe Photoshop seminars which will greatly enhance your photographic workflow and image quality. Thousands of photographers across the globe already use Guy's techniques to amazing effect. Guy's methods will revolutionise your business and save you thousands of hours in wasted post production repetition.

Process Workflow

This seminar explores the possibility of automation. We call it processing, the intention is to educate attendees how to take the everyday manipulations that occur on almost every image and apply them automatically. Guy's process has taken years to evolve and develop and is unmatched in its quality and simplicity.

Creative Workflow

Retouching is the art of being creative in the world of Digital Imaging. In this seminar you will learn how to go far beyond Adobe Photoshop and its conventional tool set. Here you will learn how to create your own tools to produce stunning dodge and burn effects, create a post production digital reflector and a wide range of beauty treatments.

Wedding Workflow

Guy teaches you how to use his Wedding Workflow to create stunning signature Wedding Albums in a fraction of the time. Increase your productivity, improve quality and reduce your costs! Learn how to produce fantastic albums for your clients, quickly but with style and creativity. Develop your own signature Album templates using Guy's guide to currently available software.

For further information regarding the seminars and their content visit www.guygowan.com/events or email shanty@guygowan.com

Australian Testimonials

"Guy's seminar has turned my digital workflow on its head. If you go to only one seminar this year...this is it!"

Will Zyle.CPP Ironwill Photography

"I was astounded to discover Guy's knowledge when working with the theory of Photoshop"

Lisa Ford AIPP image Creator

"I'll be forever thankful I came to your Brisbane seminar. It was the best investment I ever made with my time and money!"

Yohti Jenkins

Bio

Guy Gowan has been at the cutting edge of the Digital revolution in Lithography, Print and Design and now in the Photography industry. His 25 year career history gives him an unique ability to see through marketing spin to evaluate the core essence of new technology and its best application to real world work environments.

Guy started his career as one of the UK's first scanner technicians at a small lithography company. At the tender age of 18 he became the sole operator of a analogue Contact Screen Scanner and the rest as they say is history...

In the 80's Guy travelled the world setting up scanning systems for a large UK manufacturer, he then joined one of Europe's main Repro and Print companies as Technical Scanning Director for their pre press systems. A stint as an Independent Consultant in Yugoslavia and the Pakistan led Guy to join The Last Word a London based market leader in Postscript systems for Print and Design.

Since the mid 90's Guy has developed and refined his workflow methodology for Graphic Designers and has evolved his unique Retouching Workflow for Photographers and Designers worldwide. Learning Guy's methodology and non-destructive technique through his DVD tutorials and Seminar tours has influenced thousands in the creative community worldwide.

Website

www.guygowan.com is an exciting new webazine for Graphic Designers, Photographers and the creative media community worldwide. Members will be able to access a growing range of exclusive online Guy Gowan tutorials expanding on Guy's unique experience of 25 years working at the cutting edge of design technology. The content will range from useful tips and tricks to full training courses on the major applications in use today.

As software and hardware evolves at an ever increasing pace, www.guygowan.com will be the prime platform for Guy to share the new ideas and solutions this technology brings.

Guy's career experience and skills from Lithography, printing, scanning companies through industry leading manufacturers, design houses and technology innovators is at the core of the webazine. The site will have an ever expanding resource of material on the Adobe Creative Suite, the Apple range of proaps, innovative industry technology and of course Guy's renowned workflow methodology and non destructive retouching technique.. guygowan bio

Guy Gowan is regarded as one of the creative industry's leading solutions experts.

Webcasts

In Summer 2010 Guy commenced a series of very successful online webcasts. His business reach has now expanded to Australia, Asia, Europe and the USA so a web based tutorial delivery is the perfect solution for his worldwide fan base. Guy presents a monthly free webcast outlining his techniques and methodologies to a continually growing new audience of Photographers, Graphic Designers and new media professionals and enthusiasts.

He also presents a monthly webcast in which he introduces new Actions, image solutions and insights to his growing tutorial based website members at www.guygowan.com. In July Guy also launched a pay per view webcast on the features he enjoys within Aperture - this webinar was a fantastic success and Guy now plans a series on the subject of Aperture as well as many others. ALL Guy's webcasts are FREE TO MEMBERS of his website www.guygowan.com.
